¹ The validity of the insurance is the same as the validity of the bank card. The annual insurance cost will be charged as follows. In case of debit cards, the first fee is charged at the same time with the issue of debit card. In the following years, the fee is charged on the first working day of the month after the month equivalent to the card expiry month.

² If the customer has a card that cannot be applied for in the Private Banking segment, the validity period of the foreign travel insurance is the same as the validity period of the original card. The annual fee for the travel insurance is determined and charged to the Customer based on the conditions of the account package applicable at the time the annual fee is debited.

³ Balance inquiries at foreign ATMs are available for Mastercard cards.

Other additional information:**Rules related to account management:**

A customer can only use one type of bank-account fee package at any one time, i.e. he/she can have either Private Banking OR Private Banking Superior forint and/or FCY accounts. The bank considers the fee package of the earliest opened HUF payment account to be the applicable one.

A Private Banking or a Premium Private Banking HUF and FCY account can only be used by customers who sign a new Framework Agreement or an amendment to the Framework Agreement that includes the segment limit and reclassification rules from 01.02.2024.

If the condition is not met, the account maintenance fee will be charged to the Customer only once, even if he has several HUF or foreign currency accounts.

A maximum of 20 forint and foreign currency accounts can be opened. Accounts in forint or foreign currency exceeding the maximum amount can be requested on the basis of an individual assessment.

Rules related to free one-off transfer limits:

Calendar month: from 00:00 on the 1st of each month to 23:59 on the last day of the month.

For the purpose of the calculation of the free limit, a transfer between the customer's accounts registered with the Bank in different customer categories does not qualify as a transfer between his/her own accounts. (The code is the middle 6 characters of the Account ID / short account number found in the header of the bank statement and on the customer card)

The free transfer limit applies per account; it can only be applied to the account packages specified above, it cannot be shared between accounts.

The free transfer limit includes all payment orders (including instant transfer orders initiated with a payment request or unified data entry solution) and transactions submitted to the Bank via the specified channel, regardless of whether the given order was fulfilled, withdrawn or cancelled, or recalled.

In the case of a future-dated order, if the date of submission and the requested date of execution indicated by the Customer fall in different months, the amount of the given transaction shall be included in the limit for the month as per the requested date of execution.

The free transfer limit can only be used in the given calendar month. If it is not used in a given month, the free transfer limit cannot be added to the limits of the following months. The various discounts cannot be combined; the available free limit is also reduced by the fulfilment of the types of transaction that are free anyway, e.g. the fulfilment of payment requests, or unified data entry solution and of transfers of less than HUF 50,000.

One-off and standing-order type transactions are subject to different, non-combinable and non-divisible free transfer limits that can only be enforced through specific submission channels, and the transaction calculation is also performed independently within these limits.

The information related to the free transfer limit that has already been used in the given calendar month and can still be freely used is stored and governed exclusively by the Bank's systems. The Bank does not provide a separate information interface for this purpose; the amount already used can be checked on the basis of the account history.

List of Conditions for Private Banking Superior Customers

If the amount of the given transaction is higher than the free transfer limit that can still be used, then the current, non-discounted fee must be applied to the amount exceeding the limit. According to the current condition: for the portion exceeding HUF 50,000, 0.3%, max. HUF 10,000.

A transfer between the customer's own accounts at the Bank does not reduce the free limit.

In the event of a change of account package, all transactions initiated in the given calendar month will reduce the free transfer limit for the latest account package to be applied after the change of account package, regardless of whether the given transaction was initiated and/or booked before the change of account package.

The free transfer limit is available to the customer only up until the day that he/she has an account package in which this free transfer option is available.

The Bank reserves the right to change the calculation approach with respect to the free transfer limit detailed above within the parameters permitted by the effective legal provisions.

Rules related to free standing-order limits:

In the case of standing orders, the Bank provides a separate free transfer limit distinct from that for forint one-off transfers, with the same terms and conditions as for HUF one-off transfers, with the proviso that all orders submitted via any of our channels count towards the limit, including transfers between the customer's own accounts at the bank, and in-bank and out-of-bank items too.

Rules related to SEPA transfers

In the case of SEPA (EUR) electronic transfers within the bank and outside the bank, as well as abroad within the EEA, the Bank provides a separate free transfer limit distinct from that for forint one-off transfers, with the same terms and conditions as for HUF one-off transfers, with the proviso that the Bank charges the fees associated with these transfers, then credits the customer's account subsequently, by the 10th of the month following the subject month, with the first such crediting taking place by 10.07.2024 at the latest in an accumulated amount.

The urgency, extra-urgency and conversion fees do not reduce or form part of the free transfer limit, i.e. they cannot be free, and will in all instances be charged.

Rules related to payment requests

The payment request or unified data entry solution is fulfilled in the context of an electronic transfer. Instant HUF transfer initiated by a payment request or unified data entry solution is free of charge in order to be compliant with the Section 36/E of the Act LXXXV of 2009 on the Pursuit of the Business of Payment Services (Pft.). In contrast to this, in the case of instant HUF transfers initiated through a payment request executed between 01.02.2024 and 31.05.2024, the Bank shall cancel the charged fee(s) subsequently.

II. 2 In the case of no-longer-marketed accounts

¹ Settlement is performed in advance, on the 5th day of the month. The regularly payable fixed fees for account management services, the fulfilment of cash transaction orders and bank account maintenance shall be due at the time or with the frequency specified in this List of Conditions, on the 5th day of the first month of the given period. If the due date falls on a weekend or bank holiday, the Bank shall debit the regular fixed fees from the bank account on the last banking day preceding the due date. In this case, the value date for fee payment is the day of debiting, and therefore the account holder performs the payment to the Bank prior to the due date. Asset under management means the aggregate balance of the customer's account on the last banking day of the second month of the previous calendar quarter.

² The classification of the assets under management for the current quarter is based on the aggregate balance of the Client's accounts with the Bank as at the last Banking Business Day of the second month of the previous calendar quarter.

⁵ In case of payment transactions initiated through a payment initiation service provider the fees applied on electronic channels (Raiffeisen DirektNet, myRaiffeisen mobile application and myRaiffeisen portal) used by the customer will be debited.

⁶ Under Section 36/E of the Act LXXXV of 2009 on the Pursuit of the Business of Payment Services (Pft.) in case of instant HUF transfers initiated by payment request or unified data entry solution, fee(s) won't be charged by the Bank as long as this provision is effective.

⁷ The cancellation of a payment order is available only, if the Bank did not start the execution of the payment order until the reception of the cancellation order. The cancellation of payment orders executed according to the intraday settlement rules is not available.

⁸ In case Customer initiate an in-bank standing payment order with fixed amount to their own in-bank Securities or Bank Accounts maintained as private entrepreneur, small-scale farmer, private individual with tax number or other independent private entrepreneurs, the order containing the HUF 163 is not going to be charged.

In respect of FWR Platinum Credit Card and Supplementary Card applications the Bank decides whether to approve the application on the basis of individual considerations. When making a decision, the Bank takes into account primarily the following criteria: The value of the Customer's assets managed at the Bank (minimum HUF 70 million), where assets managed at the Bank are to be understood as meaning all the assets held on the Customer's bank deposit and/or securities accounts that are available to the Customer; the Customer's account history, with particular reference to the length of time for which the bank account agreement has been valid and to the turnover transacted on his account(s); the frequency with which the Customer uses the services provided by the Bank; and the volume in which the Customer uses the services provided by the Bank.

The money transfer and the direct debit transactions are debiting the unused part of the credit card account. After the money transfer transactions the cash withdrawal interest rate is calculated. The fees are debited on the credit card account on the day of the transaction. There can be additional cost on top of the above listed fees by the other participating partner bank.

In case of foreign currency transfer with conversion the exchange rate available on the day of fulfillment can differ from the exchange rate available on the day of the order. The foreign currency transfer with conversion will be executed in the case the amount available on the customer's bank account is greater with 2% than the amount to be transferred calculated with the exchange rate available on the day prior of the order's fulfillment. The List of Conditions for Preferred Private Customers in force is contains the regulations about withdrawing, revoking money transfers, terminating direct debits and money transfer executions.

If either of these days is not a banking day, then the working day immediately prior to that is taken into account in determining the interest period.

Miscellaneous

For the event of death of the accountholder, one or more beneficiaries may be identified in respect of the SSA. Beneficiaries may be identified in a special form dedicated for this purpose. If a beneficiary is identified, the SSA account shall not constitute a part of the estate.

If payment is made from an SSA account to a beneficiary or heir, then in accordance with Art. 39/B of Act CXCV of 2011 such beneficiary or heir shall be regarded as an accountholder, and the deposition made by the accountholder shall be regarded as a deposition made by the beneficiary or heir, for the purposes of tax payment obligation. Procedural rule 5

The recipient RTGS member may not make corrections to the received order prior to the crediting of the customer account. If the sender bank asks the order to be retransferred prior to the crediting of the customer account due to a technical error (e.g. duplication of order), the recipient RTGS member shall, upon the sender member's signal, return the order with a standard retransfer code in exchange for a simultaneous written confirmation by the sender member (which contains data that can be used to unequivocally identify the given payment order). If the customer account has already been credited, the recipient RTGS member, upon the sender RTGS member's signal, shall commence discussions with its own customer without delay in order to retransfer, as soon as possible, the amounts that have been credited due to the fault of the sender; however, even in this case the recipient RTGS member may not correct the received order.
